LARAGON – Update Node.js

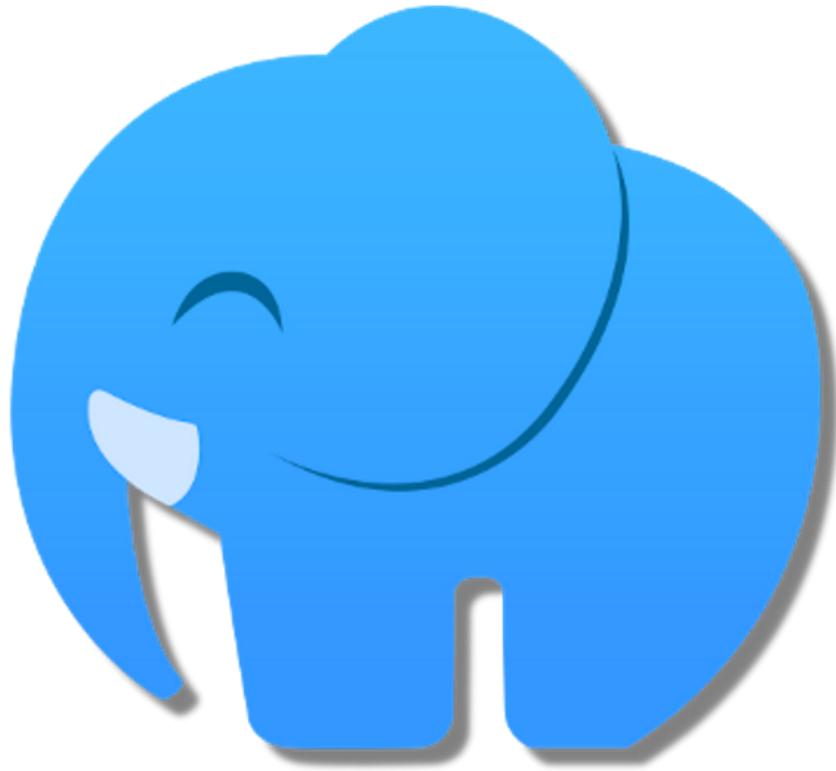

01/03/2021

Table of Contents

1. Introduction
2. Currently installed Node.js version?
3. Laragon - Updating Node.js

1. Introduction

In [Laragon](#), updating [node.js](#) to its latest version is easy.

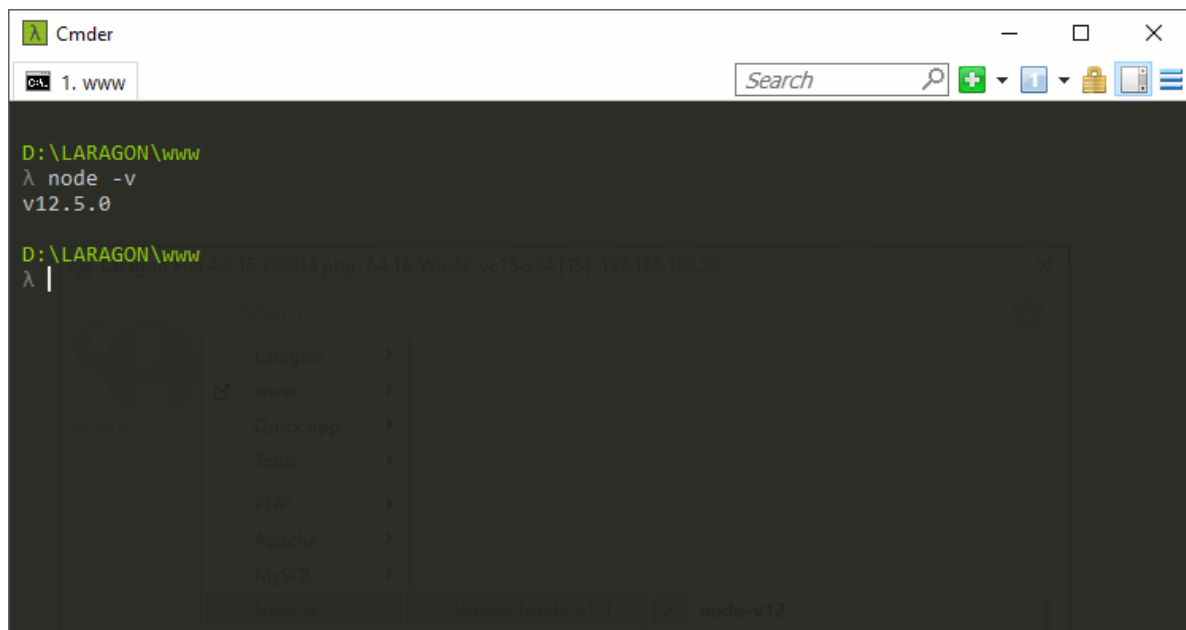

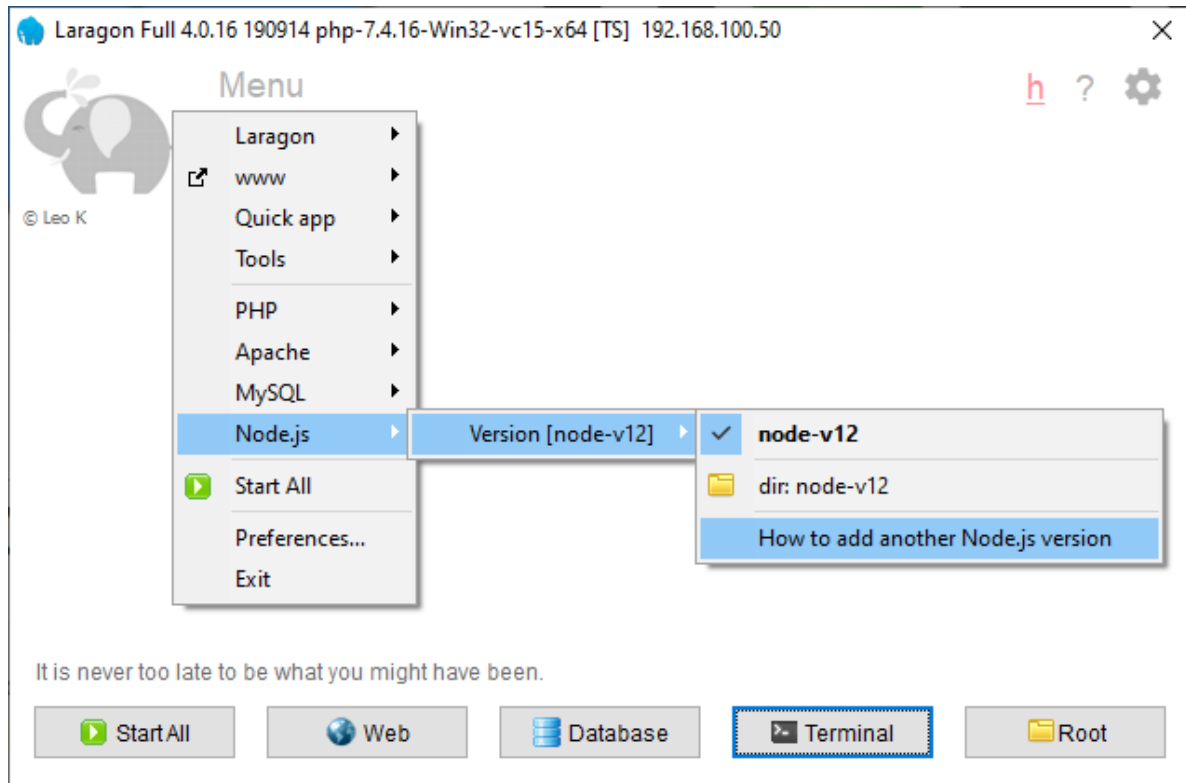

Just download the new version, unpack it into the right folder and select the new version in the Laragon menu.

2. Currently installed Node.js version?

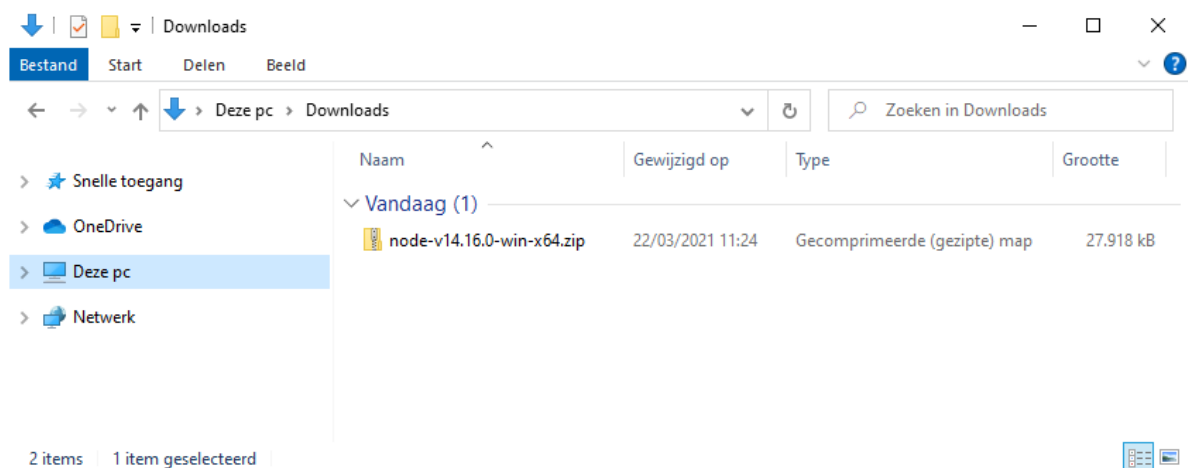

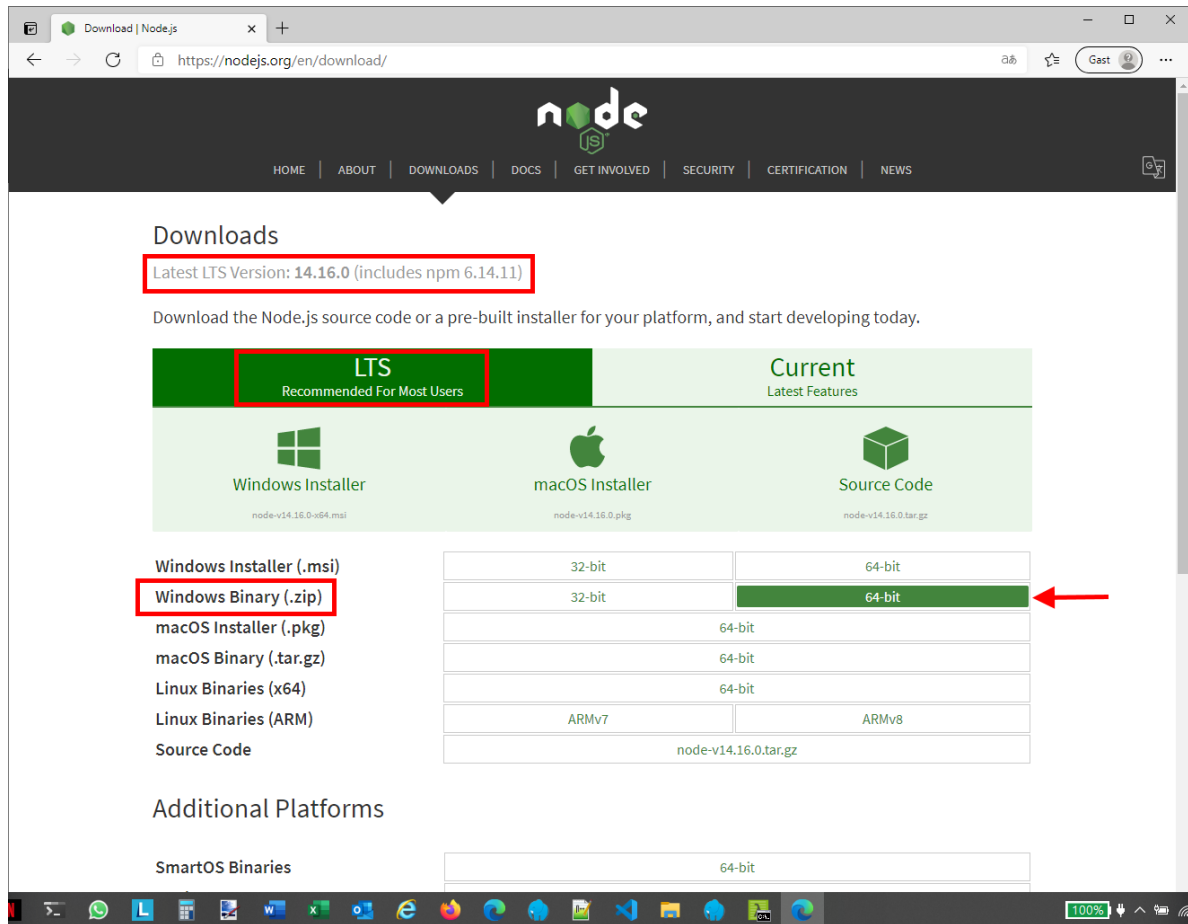

- In the **Node.js** section, you can see the installed Node.js version.
- Open a terminal window by clicking the **Terminal** button in the Laragon Button Menu.
- Then type **node -v** to get the exact node.js version installed.
- Close the terminal window.

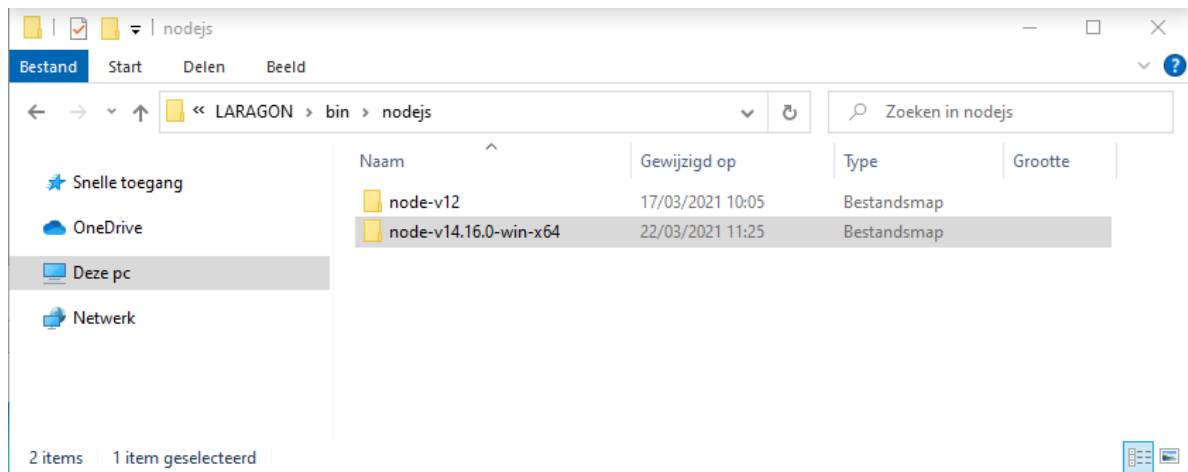

3. Laragon - Updating Node.js

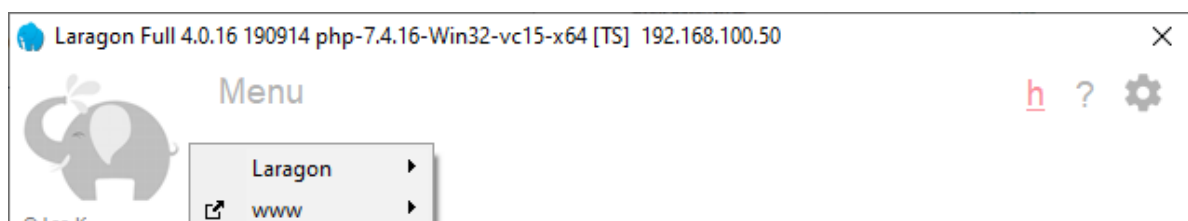

- Download the latest **LTS win-x64** Node.js version from nodejs.org/en/download/ into your \Downloads\ folder. The packed file is named for instance **node-v14.16.0-win-x64.zip**.

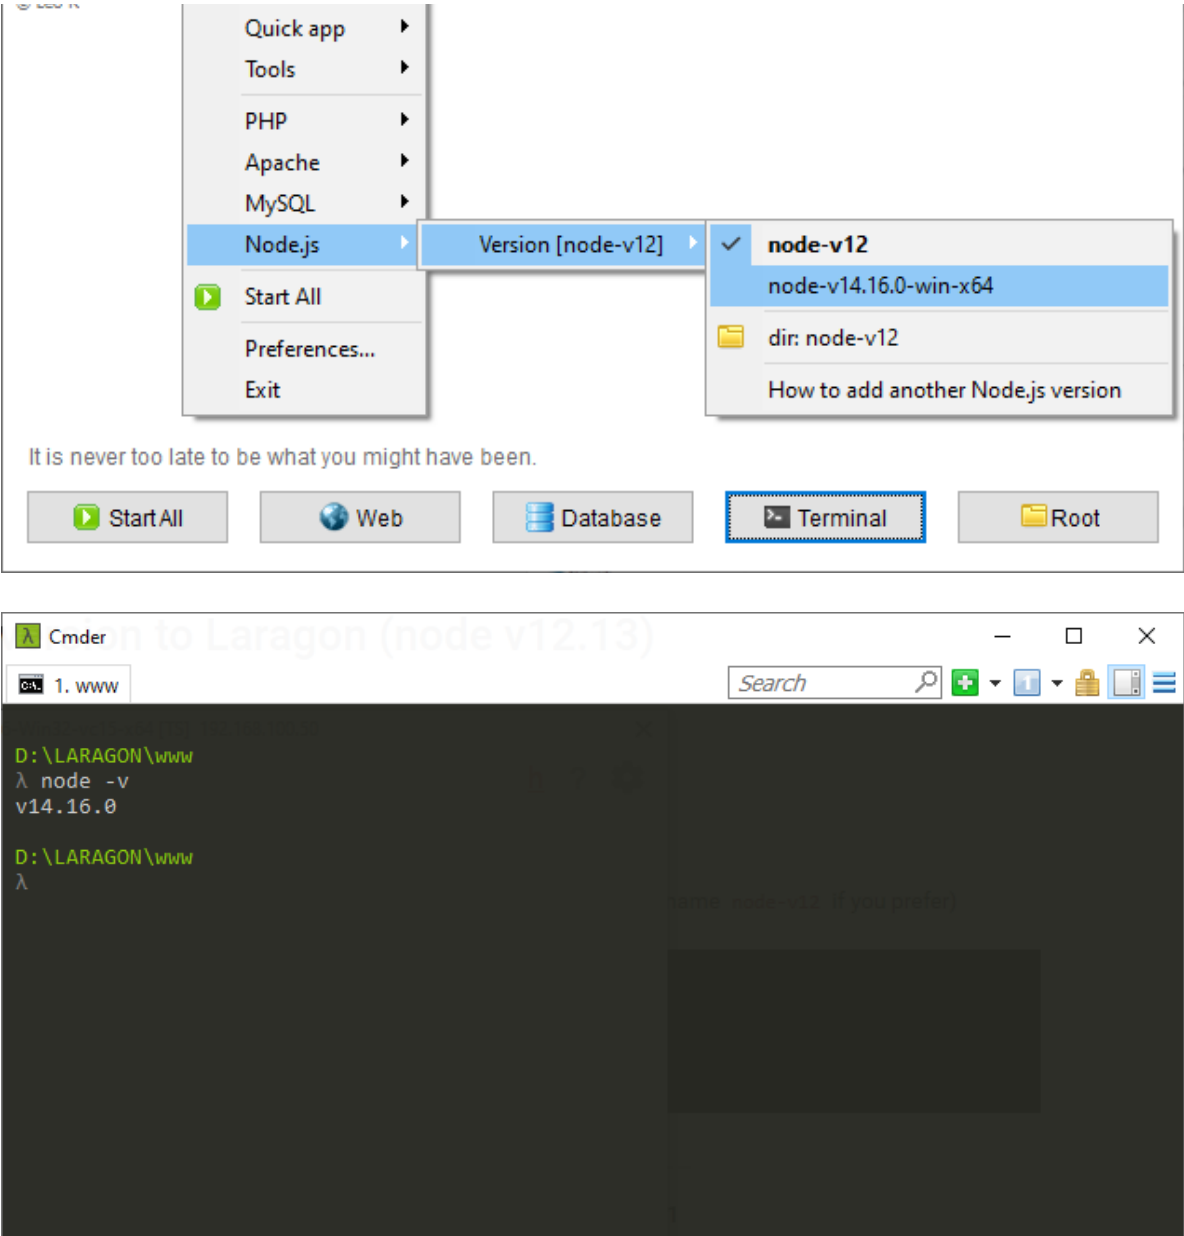

- Unpack the downloaded ZIP archive in a folder with the same name, for instance **node-v14.16.0-win-x64**.
- Move the complete `\node-v14.16.0-win-x64\` folder to the `\bin\nodejs\` folder of your Laragon installation.

- In the **Node.js** section, select the newly installed Node.js version.
- Open a terminal window by clicking the **Terminal** button in the Laragon Button Menu.
- Then type **node -v** to get the exact node.js version installed.
- Close the terminal window.
- Now you can remove the previous version by removing its folder from `\bin\nodejs\`.
